

AN ADAM EXPERIMENT

ONE MAN SHOW ABOUT ADAM CLAYTON POWELL JR

Written and Performed by

Michael Chenevert

From "The Following", "Boardwalk Empire" and "Ugly Betty"

NYC, October, 12, 2015 — Men of power are rarely saints. They never have been and never will be.

AN ADAM EXPERIMENT explores the ignitable inner workings of the turbulent yet brilliantly effective politician and pastor from Harlem, NY Adam Clayton Powell, Jr. He considered himself a "Flaming tongue" for civil rights. Fighting tirelessly through four decades to end second-class citizenship in America. As a Congressman he did his crusade behind closed doors where victories aren't always broadcast. But his controversial public life was well known. He loved the abundance of wine, women, and song available to every man of his stature and celebrity. AN ADAM EXPERIMENT gives the audience a microscopic view of one day in Adam's life when his country was in an uproar over integration and his wife was in an uproar over his philandering. Adam Clayton Powell, Jr was a brilliant visionary, who achieved much for his country and his people. At the same time creating much scandal for himself.

MICHAEL CHENEVERT is a seasoned actor who as a young kid in Detroit was nicknamed "Little Adam" because of his similar features to Adam Clayton Powell Jr. He has a family that was involved with politics, so it only makes sense that he portray this great man. NY Times says "Michael Chenevert is credibly intense". "A winning Michael Chenevert" Backstage. "Special kudos goes to Michael Chenevert" Amsterdam News.

SUSAN BATSON, who has coached Nicole Kidman, Juliette Binoche, Oprah, and many other notable stars supervises this truthful portrayal. She saw the vision that was possible for Michael Chenevert as an actor and human being by committing to this compelling project.

AN ADAM EXPERIMENT will have you at the edge of your seat, while you experience a slice of life of a man faced with his political and sexual demons and desires, performed by an artist who isn't scared of the edge.
